- Students will follow regular schedules and course assignments for live streamed teacher led interactive instruction as if they were in attendance on campus.

- Students are required to complete daily assignments.
- Scheduled tutorials and interventions will be established.
- Show up to synchronous instruction ready to learn, on time, dressed appropriately, and follow online etiquette including using video and showing your face during class.

Asynchronous instruction refers to prerecorded digital instruction with intermittent teacher interaction that allows students to self-pace their learning. There is pre-assigned work with formative assessments on the learning management system.

- Students will follow regular schedules and course assignments for recorded teacher led instruction as they self-pace and self-manage their learning.
- Regular state mandated attendance laws will be enforced for course credits.

- Scheduled tutorials and interventions will be established.

Once parents select the Face-to-Face or Remote model of learning, the student will remain in that setting until the end of the six-week grading period before a change can be made to a different setting.
